About Universal Coolers

Universal Coolers is a New York based leading manufacturer of restaurant and food service equipment. In business since 1982 by original owners, our main concern is to meet customer's demands. Optimum quality, efficient operation, minimum service and maintenance costs, is our objective.

At Universal Coolers, we know the restaurant and food service industry inside and out, and can help make decisions for the most proficient and practical commercial equipment for your business needs. We do everything possible to insure that you are buying the highest quality equipment, made with the highest quality parts.

All our items produced individually by a combination of skillful craftsmen and modern technology, capable of designing large and small projects alike. With an extensive collection, we can recommend products based on everything from the physical space you have available to the amount of power you will be using. There are countless ways that a new refrigeration system can save you money and increase profits.

Please browse thru our line of quality products, and thank you for visiting.
